Description

This bond refers to the Finvex Ethical & Efficient Europe 30 Price Index (the underlying). It has a fixed maturity of about eight years and falls due on 30/01/2025 (due date). During the life of the bond no interest accrues, and the investors do not receive any ongoing return (such as for example dividends). The redemption at the end of maturity depends on the performance of the underlying and may amount to a minimum of 95.00 % of nominal value (minimum redemption price). The participation of the investor in the positive performance of the underlying is limited to 40.00 % (cap). Above the cap the investor does not participate on

a positive performance of the underlying.

The redemption amount is determined as follows:

1. If the performance is at or above the cap, redemption is at 140.00 % of the nominal amount (maximum redemption amount);
2. If the performance is below the cap, then the redemption amount equals the performance of the underlying multiplied by the nominal amount, at least 95.00 % of the nominal amount (minimum redemption amount).

Payment notes

During the life of the bond no interest accrues.

Settlement
