Reverse convertibles | Description

This protect reverse convertible refers to the shares of Amazon.com, NETFLIX INC and Spotify Technology SA. The protect reverse convertible has a fixed term (maturity date: 30/06/2021) and a risk buffer (= barrier; "protect").

At maturity investors receive an interest payment of 11.00 % p.a. based on the nominal amount (EUR 1,000), regardless of the performance of the underlyings.

The repayment of the nominal value at maturity depends on the performance of the underlyings during the observation period.

The reverse convertible is redeemed at 100.00 % of nominal amount as long as

- the daily closing price of each underlying does not touch or fall below the barrier during the observation period. This is also valid, if the final reference price of at least one underlying is below the strike price on the valuation date, but above the barrier.

- at least one underlying touches or falls below the barrier, but the final reference price of all underlyings on the valuation date is equal to or higher than the strike price.

If the closing price of at least one underlying is below its respective barrier at least once during the observation period, then investors receive a redemption amount that equals the nominal amount multiplied by the performance of the underlying which had the worst performance. In this case, the redemption amount can be below the nominal amount or even be zero, whereas the maximum amount for redemption is 100.00 % of nominal amount.

+ Advantages	! Risks you should be aware of
<ul style="list-style-type: none"> ▪ You receive a fixed coupon of 11.00 % p.a. independent of the performance of the underlyings. ▪ Additional risk buffer of 40 % in case of falling prices of the underlyings. ▪ Chance to profit even if the share price is slightly falling. ▪ Erste Group Bank AG will set quotes for this product during the term, but is not obliged to. ▪ The exchange rate of the currency of the protect reverse convertible (EUR) and the currency of the underlyings has no direct impact on the redemption amount. 	<ul style="list-style-type: none"> ▪ There is no capital guarantee for this product. ▪ During the term price fluctuations of the reverse convertible are possible and premature sales may lead to capital loss. Limited trading of the product is possible. ▪ The earnings are capped at 11.00 % p.a. even if the underlyings have a better performance. ▪ The investor bears the issuer risk of Erste Group Bank AG. ▪ In case the redemption is below 100.00 % of the nominal amount, capital loss may occur. A total loss of invested capital is possible.

Secondary market

The bond will be issued on a continuous basis and publicly offered in Germany, Austria, Romania and Croatia. From the issue date onwards the bond can basically be traded on a stock exchange or over-the-counter. Under normal trading conditions the issuer will continuously quote indicative prices. Listing at the unofficial market of Stuttgarter Wertpapierbörse (Baden-Württembergische Wertpapierbörse) and Börse Wien is scheduled. The decision about the admission to the respective market and the actual listing will be taken by the board of the respective stock exchanges. From admission onwards the bond can be traded on each stock exchange during trading hours.
