## Index/Participation Certificates | Description

With this Erste Group index certificate investors directly participate on the performance of the underlying instrument, Solactive ERSTE Immoaktien Index. This index comprises the six largest Austrian and German real estate shares. The composition of the index is dynamic and is recalculated and adjusted quarterly.

The certificate has an unlimited term and is suitable for long-time investment. With a management fee of 1 % p.a. the cost structure is interesting. The certificate is exchange traded.

The index certificate is based on the Solactive ERSTE Immoaktien Index NTR. The index represents the six largest real estate shares of Austria and Germany. The shares must be denominated in EUR and classified as real estate shares. A market capitalization of at least EUR 500 million ("free float") applies to new index constituents. The composition of the index is checked and recalculated on a quarterly basis ("rebalancing"). The shares are then equally weighted.

Details on the index can be found on the website of the index provider Solactive AG: <https://www.solactive.com/indices/?index=DE000SL0EKT5>

## Secondary market

From the value date onwards the certificates can be traded on each stock exchange day between 9:00 and 20:00. However, Erste Group Bank AG cannot guarantee the existence or maintenance of an active market throughout the entire life of the certificate. The issuer will, as a rule, continuously quote prices, but is not obligated to do so. Neither is the issuer obligated to redeem the certificates. During the life of the certificate its price will be significantly determined by the general development of interest rates, the fluctuations on the capital market, and the general economic scenario.
