Description

The underlying of this bond is the PAYPAL HOLDINGS INC USD share. The bond pays a fixed coupon of 5.00 % p.a., regardless is paid of the performance of the underlying. The bond comes with a fixed maturity of five years unless it is called prior to the end of maturity. The amount of redemption on the date of maturity depends on the closing price of the underlying on the last value date (final reference price).

Unless the bond was called early, it will be redeemed at the maturity date as follows:

- a) if the final reference price of the underlying is at or above the final redemption barrier, the bond is redeemed at 100% of nominal value plus the coupon payments that have accrued by that point in time;
- b) if the final reference price of the underlying is below the final redemption barrier, the investor receives shares of the underlying. Due to the lower strike price of 50.00 % (=50.00 % airbag) of the closing price of the underlying a predetermined higher number of shares (defined by the ratio) of the underlying is delivered, plus the coupon payments that have accrued by that point in time. Fractional share certificates are not delivered; instead, any fractional amounts are settled in cash.

Payment notes

This bond offers the chance of a possible early redemption at 100% of nominal value, depending on the performance of the underlying

Settlement

This bond will be redeemed on 27/04/2027, unless the bond was called early. There is an automatic early redemption, if the closing price of the underlying is at or above the current redemption barrier on one of the valuation dates. The respective current redemption barrier is 95.00 % in the 1st year, 90.00 % in the 2nd year, 85.00 % in the 3rd year and 80.00 % in the 4th year.

Secondary market

The bond will be issued on a continuous basis and publicly offered in Germany. From the issue date onwards the bond can basically be traded on a stock exchange or over-the-counter. Under normal trading conditions the issuer will continuously quote indicative prices. Listing at the unofficial market of Stuttgarter Wertpapierbörse (Baden-Württembergische Wertpapierbörse) is scheduled. The decision about the admission to the respective market and the actual listing will be taken by the board of the respective stock exchanges. From admission onwards the bond can be traded on each stock exchange during trading hours.
