SANOFI FR0000120578	EUR	97.7800	58.6680	91.65	35.99%	10

Reverse convertibles | Description

This protect reverse convertible refers to the shares of Fresenius SE & Co KGaA, Merck KGaA und Sanofi SA. The protect reverse convertible has a fixed term (maturity date 30/06/2024) and a risk buffer (= barrier; "protect").

At maturity investors receive an interest payment of 10.75 % p.a. based on the nominal amount (EUR 1,000), regardless of the performance of the underlyings.

The repayment of the nominal value at maturity depends on the performance of the underlyings during the observation period.

The reverse convertible is redeemed at 100.00 % of nominal amount as long as

- the daily closing price of each underlying does not touch or fall below the barrier during the observation period. This is also valid, if the final reference price of at least one underlying is below the strike price on the valuation date, but above the barrier.

- at least one underlying touches or falls below the barrier, but the final reference price of all underlyings on the valuation date is equal to or higher than the strike price.

If the closing price of at least one underlying touches or falls below the respective barrier at least once during the observation period and at least one of the final reference prices on the valuation date is lower than the strike price, the investor receives a fixed number of shares of the underlying with the worst performance ("worst-of"). Fractions of a share are settled in cash.

Secondary market

The bond will be issued on a continuous basis and publicly offered in Germany, Austria, Romania and Croatia. From the issue date onwards the bond can basically be traded on a stock exchange or over-the-counter. Under normal trading conditions the issuer will continuously quote indicative prices. Listing at Börse Wien and at the unofficial market of Stuttgarter Wertpapierbörse (Baden-Württembergische Wertpapierbörse) is scheduled. The decision about the admission to the respective market and the actual listing will be taken by the board of the respective stock exchanges. From admission onwards the bond can be traded on each stock exchange during trading hours.
